

Be Aware of Scams!!!!!!

Recently the residents of Sterling received a letter from the City regarding the electric municipal aggregation program. Based on the letter, you have the option to “opt out” and continue service with Com Ed or do nothing and utilize Dynergy as your electrical energy supplier through August 2018.

Please be aware of phone calls and other solicitations for electrical suppliers that could be scams. The City has not, and will not, endorse any door to door solicitors. Solicitors must be licensed through the City. Please call the Sterling Police Department at 815-632-6600 with questions or complaints regarding solicitor licenses or behavior. If you have any questions regarding the electrical aggregation program, please call City Hall at 815-632-6621.
