

Open burning is not allowed.

However,

- 1) A recreational fire is allowed *in an enclosed vessel, fire pit or fireplace (such as a Chiminea) designed for such use.* The vessel must use a spark screen.
- 2) No garbage or yard waste is to be burned.
- 3) The fire must be supervised at all times.
- 4) No fires when the wind speed exceeds a constant 10mph.
- 5) The fire must be extinguished if a complaint is filed by the neighbors

Use common sense and have a garden hose available to extinguish the fire if necessary.
